DANIEL SMITH

Watercolor Stick Project

Transfer the line-drawing below to a watercolor surface of your choice. Using the paint samples provided, explore the wonderful possibilities available with DANIEL SMITH Watercolor Sticks.

Some ideas to get you started:

- Wet your surface and draw directly into it.
- Pre-wet your stick and apply saturated color.
- Liquify color shavings and mix with other colors.

DANIEL SMITH EXTRA FINE WATERCOLOR STICKS

DANIEL SMITH EXTRA FINE WATERCOLOR STICKS are a new, extremely versatile, true-multimedia artist tool, putting the power of drawing and painting together in one unique tool!

DANIEL SMITH EXTRA FINE WATERCOLOR STICKS offer the same superior intensity as the **DANIEL SMITH** line of Extra Fine Watercolor paints with the convenience and portability of half pans. Each stick is packed with pure pigment and produces vibrant, strong color when wet or use them dry to build texture. They're highly reactive with water and release rich, creamy colors.

For sketching, developing color values and bold expressions, **DANIEL SMITH EXTRA FINE WATERCOLOR STICKS** are a truly valuable addition to every artists' palette.

All **DANIEL SMITH EXTRA FINE WATERCOLOR STICKS** are rated Lightfast I – Excellent.
